

March 28, 1973

PRESIDENT: Well, the chair would honor that. I don't see anything the matter with trying that. Senator Syas, do you object to that or...

SENATOR SYAS: I'm not objecting only I really do, in all sincerity, I talked to...I'm not objecting to what he is doing, but I did talk to Senator Proud and he did state to me that we did skip over the other day one, should be, non-controversial bill that should be advanced. Really. And I would like to have that taken up. That's 331.

PRESIDENT: 311.

SENATOR SYAS: And I'm not trying to pull anything, really. No, I wouldn't do that. You fellows know that.

PRESIDENT: LB 331.

SENATOR SYAS: Yes, it's anonymous bill for the Game Department. It...no, really.

PRESIDENT: Thank you. OK. We got it on the list now, Senator. Just stand by a minute here. All right. In order to put this in some kind of focus, here. Senator Whitney, can you give us the number of those five bills. Start off with one. You want to start off with one. The only reason I would honor this request is because he had these up the other day laid before us and had clearance with Senator Proud, and then we ran out of time. And, then, after those, if we can get that launched, then, we have the suggestion from Senator Carpenter that we start at the bottom of General File and the chair would accept that unless somebody objects to that, and just work them backwards. If we run into some controversy, why, we will skip over them. Senator Syas, the clerk wants you. Yes, you can't hear him on purpose because he is carrying on a conversation with the clerk and you don't need to. Senator Whitney, how are you doing?

SENATOR WHITNEY: LB 352.

PRESIDENT: 352. All right. We will start with LB 352. No, 352. The clerk will read the title.

CLERK: LB

(End of Belt #12)
